2. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

Non-controlling interest represents a portion of the profit or loss and net assets not attributable to the parent and is presented separately in the consolidated statements of profit or loss and other comprehensive income, and within equity in the consolidated statements of financial position, separately from equity attributable to the parent.

All other comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in a parent's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions, in which the carrying amount of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. The difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the parent.

All significant intercompany transactions and balances have been eliminated.

If a parent loses control of a subsidiary, the parent:

- a) derecognizes the assets (including goodwill) and liabilities of the former subsidiary from the consolidated statements of financial position.
- b) recognizes any investment retained in the former subsidiary at its fair value at the date when control is lost, and subsequently accounts for it and for any amounts owed by or to the former subsidiary. That fair value shall be regarded as the fair value on initial recognition of a financial asset or, if appropriate, the cost on initial recognition of an investment in an associate or joint venture.

Masa manfaat aset tetap dan metode depresiasi ditelaah dan disesuaikan, jika sesuai keadaan, pada setiap akhir periode pelaporan.

Tanah dinyatakan sebesar biaya perolehan dan tidak disusutkan. Grup menghitung penyusutan atas kendaraan truk dengan menggunakan metode unit produksi. Taksiran masa manfaat kendaraan truk berkisar 300.000 - 900.000 kilometer.

Beban perbaikan dan pemeliharaan dibebankan pada laba rugi pada saat terjadinya; biaya penggantian atau inspeksi yang signifikan dikapitalisasi pada saat terjadinya dan jika besar kemungkinan manfaat ekonomis di masa depan berkenaan dengan aset tersebut akan mengalir ke Grup, dan biaya perolehan aset dapat diukur secara andal. Aset tetap dihentikan pengakuannya pada saat dilepaskan atau ketika tidak ada manfaat ekonomis masa depan yang diharapkan dari penggunaan atau pelepasannya. Keuntungan atau kerugian yang timbul dari penghentian pengakuan aset dimasukkan dalam laba rugi pada periode aset tersebut dihentikan pengakuannya.

The fixed assets' useful lives and methods of depreciation are reviewed, and adjusted if appropriate, at each end of reporting period.

Land is stated at cost and not depreciated. The Group calculates depreciation on trucks using the units of production method. The estimated useful life of a truck vehicle ranges from 300,000 - 900,000 kilometers.

The cost of repairs and maintenance is charged to profit or loss as incurred; replacement or major inspection costs are capitalized when incurred if it is probable that future economic benefits associated with the item will flow to the Group, and the cost of the item can be reliably measured. An item of fixed assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in profit or loss in the period in which the asset is derecognized.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING YANG DITERAPKAN (Lanjutan)

Jumlah terpulihkan suatu aset atau unit penghasil kas adalah jumlah yang lebih tinggi antara nilai wajar dikurangi biaya pelepasan dan nilai pakainya. Jika jumlah terpulihkan suatu aset lebih kecil dari jumlah tercatatnya, maka jumlah tercatat aset tersebut diturunkan nilainya menjadi sebesar jumlah terpulihkan. Rugi penurunan nilai diakui segera dalam laba rugi.

Pembalikan rugi penurunan nilai untuk aset nonkeuangan selain *goodwill*, diakui jika, dan hanya jika, terdapat perubahan estimasi yang digunakan dalam menentukan jumlah terpulihkan aset sejak pengujian penurunan nilai terakhir diakui. Pembalikan rugi penurunan nilai tersebut diakui segera dalam laba rugi, kecuali aset disajikan pada jumlah revaluasian. Rugi penurunan nilai yang diakui atas *goodwill* tidak dibalik lagi.

2. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

Current tax assets and current tax liabilities are offset if, and only if, the entity has a legally enforceable right to set off the recognized amounts; and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are recognized for temporary differences between the financial and tax bases of assets and liabilities at each reporting date. Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that sufficient future taxable profit will be available against which the deductible temporary difference can be utilized. Future tax benefits, such as the carryforward of unused tax losses, are also recognized to the extent that realization of such benefits is probable.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the end of reporting period.

Deferred tax assets and deferred tax liabilities are offset if, and only if, the entity has a legally enforceable right to set off current tax assets against current tax liabilities, and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity, or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realize the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

I. Financial Instruments

The Group recognizes financial assets and liabilities in the consolidated statement of financial position if, and only if, the Group is a party to the contractual terms of the financial instrument.

1. Financial Assets

The Group classified the financial assets into below categories:

- measured at the amortized cost; and
- measured at fair value through other comprehensive income or through profit or loss.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING YANG DITERAPKAN (Lanjutan)

Klasifikasi ini tergantung pada model bisnis Grup dan persyaratan kontraktual arus kas.

 Aset keuangan diukur pada biaya perolehan diamortisasi

Klasifikasi ini berlaku untuk instrumen utang yang dikelola dalam model bisnis dimiliki untuk mendapatkan arus kas dan memiliki arus kas yang memenuhi kriteria "sematamata dari pembayaran pokok dan bunga".

Pada pengakuan awal, piutang usaha yang tidak memiliki komponen pendanaan yang signifikan, diakui sebesar harga transaksi. Aset keuangan lainnya awalnya diakui sebesar nilai wajar dikurangi biaya transaksi yang terkait. Aset keuangan ini selanjutnya diukur sebesar biaya perolehan diamortisasi menggunakan metode suku bunga efektif. Keuntungan atau kerugian pada penghentian atau modifikasi aset keuangan yang dicatat pada biaya perolehan diamortisasi diakui pada laba rugi.

b) Aset keuangan diukur pada nilai wajar melalui penghasilan komprehensif lain

Klasifikasi ini berlaku untuk aset keuangan berikut ini:

(i) Instrumen utang yang dikelola dengan model bisnis yang bertujuan untuk memiliki aset keuangan dalam rangka mendapatkan arus kas kontraktual dan menjual dan dimana arus kasnya memenuhi kriteria "semata-mata dari pembayaran pokok dan bunga".

2. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

The classification depends on the Group' business model and the contractual terms of the cash flows.

a) Financial assets measured at amortized cost

The classification applied to debt instruments that are managed under the held-to-cash flow business model and have cash flows that meet the criteria "solely from payment of principal and interest".

At initial recognition, trade receivables that do not have a significant financing component are recognized at the transaction price. Other financial assets are initially recognized at fair value less related transaction costs. These financial assets are subsequently measured at amortized cost using the effective interest method. Gains or losses on derecognition or modification of financial assets recorded at amortized cost are recognized in profit or loss.

b) Financial assets measured at fair value through other comprehensive income

This classification applied to the following financial assets:

(i) A debt instrument that is managed under a business model that aims to hold financial assets in order to collect and sell contractual cash flows and where the cash flows meet the criteria of "solely from payment of principal and interest".

Changes in the fair value of these financial assets are recorded in other comprehensive income, unless the recognition of gain or loss on impairment, interest income (including transaction costs using the effective interest method), gains or losses arising from derecognition, and gain or loss on foreign exchange are recognized in profit or loss.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING YANG DITERAPKAN (Lanjutan)

Ketika aset keuangan dihentikan pengakuannya, keuntungan atau kerugian nilai wajar kumulatif yang sebelumnya diakui pada penghasilan komprehensif lain direklasifikasi pada laba rugi.

(ii) Investasi ekuitas dimana Grup telah memilih secara takterbatalkan untuk menyajikan keuntungan dan kerugian nilai wajar dari revaluasi pada penghasilan komprehensif lain.

Pilihan dapat didasarkan pada investasi individu, namun, tidak berlaku pada investasi ekuitas yang dimiliki untuk diperdagangkan. Keuntungan kerugian nilai wajar dari revaluasi investasi ekuitas, termasuk komponen selisih kurs, diakui pada penghasilan komprehensif lain. Ketika investasi ekuitas dihentikan pengakuannya, keuntungan kerugian nilai wajar sebelumnya diakui dalam penghasilan komprehensif lain tidak direklasifikasi pada laba rugi. Deviden diakui pada laba ketika hak untuk menerima pembayaran telah ditetapkan.

c) Aset keuangan diukur pada nilai wajar melalui laba rugi

Klasifikasi ini berlaku untuk aset keuangan berikut ini, dimana dalam semua kasus, biaya transaksi dibebankan pada laba rugi:

- (i) Instrumen utang yang tidak memiliki kriteria biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain. Keuntungan atau kerugian nilai wajar selanjutnya akan dicatat pada laba rugi.
- (ii) Investasi ekuitas yang dimiliki untuk diperdagangkan atau dimana pilihan penghasilan komprehensif lain tidak berlaku. Keuntungan atau kerugian nilai wajar dan penghasilan dividen terkait diakui pada laba rugi.

2. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

When a financial asset is derecognized, the cumulative gain or loss on fair value that was previously recognized in other comprehensive income is reclassified to profit or loss.

(ii) Equity investments where the Group has irrevocably chosen to present fair value gains and losses from revaluation in other comprehensive income.

Options can be based on individual investments, however, they do not apply to equity investments that are held for trading. Fair value gains or losses from revaluation investments, of equity including the foreign exchange component, are recognized in other comprehensive income. When an equity investment is derecognized, fair value gains or losses that were previously recognized in other comprehensive income are not reclassified to profit or loss. Dividends are recognized in profit or loss when the right to receive payments has been determined.

c) Financial assets measured at fair value through profit or loss

This classification applied to the following financial assets, where in all cases, transaction costs are charged to profit or loss:

- (i) Debt instruments that do not have the criteria for amortized cost or fair value through other comprehensive income. The gain or loss on fair value will then be recorded in profit or loss.
- (ii) Equity investments held for trading or for which other comprehensive income options are not applicable. Fair value gains or losses and related dividend income are recognized in profit or loss.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING YANG DITERAPKAN (Lanjutan)

Aset keuangan dihentikan pengakuannya ketika hak kontraktual atas arus kas dari aset keuangan tersebut telah berakhir atau telah ditransfer dan Grup telah mentransfer secara substansial seluruh risiko dan manfaat atas kepemilikan aset. Pada saat penghentian pengakuan aset keuangan, selisih antara jumlah tercatat dengan imbalan yang diterima diakui dalam laba rugi.

Penurunan Nilai Aset Keuangan

Penelaahan kerugian kredit ekspektasian masa depan diharuskan untuk: instrumen utang yang diukur pada biaya perolehan diamortisasi atau diukur pada nilai wajar melalui penghasilan komprehensif lain dan piutang usaha yang tidak memberi hak tanpa syarat untuk menerima imbalan.

Grup mengakui provisi atas kerugian penurunan nilai untuk kerugian kredit ekspektasian atas aset keuangan yang diukur pada biaya perolehan diamortisasi. Provisi atas kerugian penurunan nilai piutang usaha diukur dengan jumlah yang sama dengan kerugian kredit ekspektasian umurnya. sepaniang Kerugian kredit ekspektasian sepanjang umurnya adalah kerugian kredit ekspektasian yang dihasilkan dari semua kemungkinan kejadian gagal bayar sepanjang umur yang diharapkan dari suatu instrumen keuangan.

Ketika menentukan apakah risiko kredit dari suatu aset keuangan telah meningkat secara signifikan sejak pengakuan awal dan ketika memperkirakan kerugian kredit ekspektasian, Grup mempertimbangkan informasi relevan yang wajar dan dapat dibuktikan dan tersedia tanpa biaya atau usaha yang tidak semestinya. Ini mencakup informasi dan analisis kuantitatif dan kualitatif, berdasarkan pengalaman historis Grup dan penilaian kredit dan termasuk informasi masa depan.

2. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

Financial assets are derecognized when the contractual rights to the cash flows of the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and yield of ownership of the assets. When a financial asset is derecognized, the difference between the carrying amount and the yield received is recognized in profit or loss.

Impairment of Financial Assets

The review of expected future credit losses is required for: debt instruments measured at amortized cost or at fair value through other comprehensive income, leases and trade receivables that do not give an unconditional right to receive the yield.

The Group recognizes a provision for impairment losses for expected credit losses on financial assets measured at amortized cost. Provision for impairment losses on trade receivables is measured at an amount equal to the expected lifetime credit losses. Lifetime expected credit loss is the expected credit loss that results from all possible events of default over the expected life of a financial instrument.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Group considers relevant information that is reasonable and demonstrable and available without undue cost or effort. It includes both quantitative and qualitative information and analysis, based on the Group's historical experience and credit assessment and includes future information.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING YANG DITERAPKAN (Lanjutan)

Grup menganggap aset keuangan gagal bayar ketika pelanggan tidak mampu membayar kewajiban kreditnya kepada Grup secara penuh. Periode maksimum yang dipertimbangkan ketika memperkirakan kerugian kredit ekspektasian adalah periode maksimum kontrak dimana Grup terekspos terhadap risiko kredit.

Kerugian kredit ekspektasian adalah perkiraan probabilitas-tertimbang dari kerugian kredit. Kerugian kredit diukur sebagai nilai sekarang dari semua kekurangan penerimaan kas (yaitu perbedaan antara arus kas terutang dari suatu entitas berdasarkan kontrak dan arus kas yang diharapkan untuk diterima). Kerugian kredit ekspektasian didiskontokan pada tingkat bunga efektif dari aset keuangan tersebut.

2. Liabilitas Keuangan

Pada saat pengakuan awal, Grup mengukur liabilitas keuangan pada nilai wajar ditambah atau dikurangi, biaya transaksi yang terkait langsung dengan perolehan atau penerbitan liabilitas keuangan. Grup mengklasifikasikan semua liabilitas keuangannya ke dalam kategori liabilitas keuangan yang diukur pada biaya perolehan diamortisasi.

Setelah pengakuan awal, liabilitas keuangan selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Keuntungan atau kerugian diakui dalam laba rugi ketika liabilitas keuangan tersebut dihentikan pengakuannya atau mengalami penurunan nilai, dan melalui proses amortisasi.

2. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

The Group considers the financial assets to be default when the customer is unable to pay their credit obligations fully to the Group. The maximum period to consider when estimated expected credit losses is the maximum period of the contract in which the Group is exposed to credit risk.

Expected credit losses are probability-weighted estimates of credit losses. Credit losses are measured as the present value of all cash receipts deficiency (i.e, the difference between the cash flows payable from an entity under the contract and the cash flows that the Group expects to receive). Expected credit losses are discounted at the effective interest rate of the financial asset.

2. Financial Liabilities

At initial recognition, the Group measures financial liabilities at fair value plus or less the transaction costs that are directly related to the acquisition or issuance of financial liabilities. The Group classifies all of its financial liabilities into the financial liabilities measured at amortized cost.

After initial recognition, financial liabilities in this category are subsequently measured at amortized cost using the effective interest method. Gains or losses are recognized in profit or loss when the liabilities are derecognized, or impaired, as well as through the amortization process.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING YANG DITERAPKAN (Lanjutan)

Grup mengeluarkan liabilitas keuangan dari laporan posisi keuangan konsolidasiannya jika, dan hanya jika, kewajiban yang ditetapkan dalam kontrak dilepaskan atau dibatalkan atau kedaluwarsa. Selisih antara jumlah tercatat liabilitas keuangan yang berakhir atau yang dialihkan ke pihak lain, dan imbalan yang dibayarkan, termasuk aset nonkas yang dialihkan atau liabilitas yang ditanggung diakui dalam laba rugi.

3. Saling Hapus Instrumen Keuangan

Aset keuangan dan liabilitas keuangan saling hapus dan jumlah netonya dilaporkan dalam laporan posisi keuangan konsolidasian jika, dan hanya jika, saat ini memiliki hak yang berkekuatan hukum untuk melakukan saling hapus atas jumlah yang telah diakui dan terdapat niat untuk menyelesaikannya secara neto, atau untuk merealisasikan aset dan menyelesaikan liabilitasnya secara simultan.

m. Pengukuran Nilai Wajar

Nilai wajar instrumen keuangan yang diperdagangkan di pasar aktif pada setiap tanggal pelaporan ditentukan dengan mengacu pada kuotasi harga pasar atau kuotasi harga pedagang efek (harga penawaran untuk posisi beli dan harga permintaan untuk posisi jual), tidak termasuk pengurangan apapun untuk biaya transaksi.

Untuk instrumen keuangan yang tidak memiliki pasar aktif, nilai wajar ditentukan dengan menggunakan teknik penilaian. Teknik penilaian mencakup penggunaan transaksi pasar terkini yang dilakukan secara wajar oleh pihak-pihak yang berkeinginan dan memahami (recent arm's length market transactions), penggunaan nilai wajar terkini instrumen lain yang secara substansial sama, analisa arus kas yang didiskonto, atau model penilaian lain.

2. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

The Group derecognizes a financial liability from its consolidated statement of financial position if, and only if, the obligation specified in the contract is released or cancelled or has expired. The difference between the carrying amount of financial liabilities that have ended or been transferred to another party and the consideration paid, including non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

3. Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

m. Fair Value Measurement

The fair value of financial instruments that are traded in active markets at each reporting date is determined by reference to quoted market prices or dealer price quotations (bid price for long position and price demand for short position), excluding any deduction for transaction costs.

For financial instruments where there is no active market, fair value is determined using valuation techniques. Such techniques may include using recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis, or other valuation models.

n. Imbalan Kerja

Imbalan Kerja Jangka Pendek

Imbalan kerja jangka pendek merupakan kompensasi yang diberikan oleh Grup seperti gaji, tunjangan, bonus dan pembayaran manfaat pensiun, yang diakui pada saat terutang kepada karyawan.

Imbalan Pascakerja

Pada tanggal 2 Februari 2021, Pemerintah mengundangkan dan memberlakukan Peraturan Pemerintah No. 35 Tahun 2021 (PP 35/2021) untuk melaksanakan ketentuan Pasal 81 dan Pasal 185(b) UU No. 11/2020 mengenai Cipta Kerja, yang bertujuan untuk menciptakan lapangan kerja yang seluas-luasnya bagi rakyat Indonesia secara merata, dalam rangka memenuhi kehidupan yang layak. PP 35/2021 mengatur mengenai perjanjian alih daya, waktu kerja, waktu istirahat dan pemutusan hubungan kerja, yang dapat mempengaruhi manfaat imbalan minimum yang harus dibayar kepada para karyawan.

Ketika Grup memiliki surplus dalam program imbalan pasti, maka Grup mengukur aset imbalan pasti pada jumlah yang lebih rendah antara surplus program imbalan pasti dan batas atas aset yang ditentukan dengan menggunakan tingkat diskonto.

Grup mengakui komponen biaya imbalan pasti, kecuali SAK mensyaratkan atau mengizinkan biaya tersebut sebagai biaya perolehan aset, sebagai berikut:

- (a) biaya jasa dalam laba rugi;
- (b) bunga neto atas liabilitas (aset) imbalan pasti neto dalam laba rugi; dan
- (c) pengukuran kembali liabilitas (aset) imbalan pasti neto dalam penghasilan komprehensif lain.

n. Employee Benefits

Short-term Employee Benefits

Short-term employee benefits represent compensation provided by the Group such as salaries, allowance, bonus and pension contribution paid, which are recognized when they accrue to the employees.

Post-employment Benefits

On February 2, 2021, the Government promulgated and enforced Government Regulation Number 35 Year 2021 (PP 35/2021) to implement the provisions of Article 81 and Article 185 (b) of Law No. 11/2020 concerning Job Creation (Cipta Kerja), which aims to create the widest possible employment opportunities for the Indonesian people evenly, in order to fulfill a decent living. PP 35/2021 regulates the work agreement for a certain time (non-permanent employees), outsourcing, working time, rest time and termination of employment, which can affect the minimum benefits that must be paid to employees.

When the Group has a surplus in a defined benefit plan, it measures the defined benefit asset at the lower amount between the surplus of defined benefit plan and the upper limit on assets determined using a discount rate.

The Group recognizes the components of defined benefit cost, except SAK requires or permits such costs as the acquisition cost of the asset, as follows:

- (a) service cost in profit or loss;
- (b) net interest on net liability (asset) of defined benefit in profit or loss; and
- (c) remeasurement of the net liability (asset) of defined benefit in other comprehensive income.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING YANG DITERAPKAN (Lanjutan)

Pengukuran kembali atas liabilitas (aset) imbalan pasti neto yang diakui dalam penghasilan komprehensif lain tidak direklasifikasi ke laba rugi pada periode berikutnya. Akan tetapi, Grup dapat mengalihkan jumlah yang diakui sebagai penghasilan komprehensif lain tersebut pada pos lain dalam ekuitas.

Bunga neto dihitung dengan menggunakan tingkat diskonto terhadap liabilitas atau aset imbalan pasti neto. Biaya jasa terdiri dari biaya jasa kini dan biaya jasa lalu, keuntungan dan kerugian kurtailmen dan penyelesaian tidak rutin, jika ada. Beban atau pendapatan bunga neto, dan biaya jasa diakui dalam laba rugi.

Grup mengakui biaya jasa lalu sebagai beban pada tanggal yang lebih awal antara ketika amandemen atau kurtailmen program terjadi dan ketika Grup mengakui biaya restrukturisasi terkait atau pesangon. Grup mengakui keuntungan atau kerugian atas penyelesaian program imbalan pasti pada saat penyelesaian terjadi.

Kurtailmen terjadi ketika Grup mengurangi secara signifikan jumlah pekerja yang ditanggung oleh program, atau mengubah ketentuan program imbalan pasti sehingga unsur yang signifikan dari jasa masa depan karyawan saat ini tidak lagi memenuhi syarat atas imbalan, atau akan memenuhi syarat hanya untuk imbalan yang dikurangi.

o. Sewa

Sewa yang mengalihkan secara substansial semua risiko dan manfaat yang terkait dengan kepemilikan aset kepada penyewa diklasifikasikan sebagai sewa pembiayaan. Pada awal masa sewa, sewa pembiayaan dikapitalisasi sebesar nilai wajar aset sewaan atau sebesar nilai kini dari pembayaran sewa minimum, jika nilai kini lebih rendah dari nilai wajar.

2. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

Remeasurement on net liability (asset) of defined benefit recognized in other comprehensive income is not reclassified to profit or loss in subsequent periods. However, the Group may transfer the amounts recognized as other comprehensive income in another account in equity.

Net interest is calculated using a discount rate on the net defined benefit liability or asset. Service costs consist of current service costs and past service costs, gain and loss of curtailment and non-routine settlement, if any. Net interest expense or income, and service costs are recognized in profit or loss.

The Group recognizes past service cost as an expense at the earlier of when the amendments or curtailment of program occurs and when the entity recognizes related restructuring costs or severances. The Group recognizes gains or losses on the settlement of a defined benefit plan when such occur.

A curtailment occurs when the Group make a material reduction in the number of employees covered by a plan, or amends the terms of a defined benefit plan so that a significant element of future service by current employees will no longer qualify for benefits, or will qualify only for reduced benefits.

o. Leases

Leases that transfer substantially all the risks and benefits incidental to ownership of the leased item to the lessee are classified as finance leases. Finance leases are capitalized at the inception of the lease at the fair value of the leased assets or at the present value of the minimum lease payments if the present value is lower than the fair value.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING YANG DITERAPKAN (Lanjutan)

Pembayaran sewa minimum dipisahkan antara bagian yang merupakan beban keuangan dan bagian yang merupakan pelunasan liabilitas sehingga menghasilkan suatu tingkat bunga periodik yang konstan atas saldo liabilitas. Beban keuangan dibebankan pada laba rugi. Aset sewaan yang dimiliki oleh penyewa dengan dasar sewa pembiayaan dicatat pada akun aset tetap dan disusutkan sepanjang masa manfaat dari aset sewaan tersebut atau periode masa sewa, mana yang lebih pendek, jika tidak ada kepastian yang memadai bahwa penyewa akan mendapatkan hak kepemilikan pada akhir masa sewa.

Dalam hal transaksi jual dan sewa-balik merupakan sewa pembiayaan maka transaksi tersebut harus diperlakukan sebagai dua transaksi yang terpisah yaitu transaksi penjualan dan transaksi sewa. Selisih lebih hasil penjualan dari jumlah tercatat ditangguhkan dan diamortisasi selama masa sewa.

Sewa yang tidak mengalihkan secara substansial seluruh risiko dan manfaat yang terkait dengan kepemilikan aset diklasifikasikan sebagai sewa operasi.

p. Provisi dan Kontinjensi

Provisi diakui jika Grup memiliki kewajiban kini (baik bersifat hukum maupun bersifat konstruktif) yang akibat peristiwa masa lalu, besar kemungkinannya penyelesaian kewajiban tersebut mengakibatkan arus keluar sumber daya yang mengandung manfaat ekonomi dan estimasi yang andal mengenai jumlah kewajiban tersebut dapat dibuat.

Provisi ditelaah pada setiap akhir periode pelaporan dan disesuaikan untuk mencerminkan estimasi terbaik yang paling kini. Jika arus keluar sumber daya untuk menyelesaikan kewajiban kemungkinan besar tidak terjadi, maka provisi dibatalkan.

2. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recorded in profit or loss. Leased assets held by the lessee under finance leases are included in fixed assets and depreciated over the estimated useful life of the assets or the lease term, whichever is shorter, if there is no reasonable certainty that lessee will obtain ownership by the end of the lease term.

In the case of sale and leaseback results in a finance lease, this is to be treated as two separate transactions, i.e. sale and lease. The excess of sales proceeds over the carrying amount is deferred and amortized over the lease term.

Leases that do not transfer substantially all the risks and benefits incidental to ownership of the leased item are classified as operating leases.

p. Provisions and Contingencies

Provisions are recognized when the Group has a present obligation (legal or constructive) where, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each end of reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING YANG DITERAPKAN (Lanjutan)

q. Informasi Segmen

Grup mengungkapkan informasi yang memungkinkan pengguna laporan keuangan untuk mengevaluasi sifat dan dampak keuangan dari aktivitas bisnis dan menggunakan "pendekatan manajemen" dalam menyajikan informasi segmen menggunakan dasar yang sama seperti halnya pelaporan internal. Segmen operasi dilaporkan dengan cara yang konsisten dengan pelaporan internal yang disampaikan kepada pengambil keputusan operasional. Dalam hal ini pengambil keputusan operasional yang mengambil keputusan strategis adalah Direksi.

r. Laba per Saham

Laba per saham dasar dihitung dengan membagi laba neto yang dapat diatribusikan kepada pemilik entitas induk, dengan jumlah rata-rata tertimbang saham biasa yang beredar selama periode yang bersangkutan.

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING

Penyusunan laporan keuangan konsolidasian, sesuai dengan Standar Akuntansi Keuangan di Indonesia, mewajibkan manajemen untuk membuat estimasi dan pertimbangan yang mempengaruhi jumlah-jumlah yang dilaporkan dalam laporan keuangan konsolidasian. Sehubungan dengan adanya ketidakpastian yang melekat dalam membuat estimasi, hasil sebenarnya yang dilaporkan di masa mendatang dapat berbeda dengan jumlah estimasi yang dibuat.

Grup mendasarkan estimasi dan pertimbangannya pada parameter yang tersedia pada saat laporan keuangan konsolidasian disusun. Situasi mengenai perkembangan masa depan mungkin berubah akibat perubahan pasar atau situasi diluar kendali Grup. Perubahan tersebut dicerminkan dalam pertimbangan terkait pada saat terjadinya.

2. SIGNIFICANT ACCOUNTING POLICIES APPLIED (Continued)

q. Segment Information

The Group disclose information that enable users of the financial statements to evaluate the nature and financial effects of the business activities and use "management approach" under which segment information is presented on the same basis as that used for internal reporting purposes. Operating segment is reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker has been identified as the Board of Directors that makes strategic decisions.

r. Earnings per Share

Basic earnings per share are calculated by dividing net profit attributable to the owners of the parent by dividing the weighted average number of issued and outstanding shares of stock during the period.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of consolidated financial statements, in conformity with Indonesian Financial Accounting Standards, requires management to make estimations and judgments that affect amounts reported therein. Due to the inherent uncertainty in making estimates, actual results reported in future periods may differ from those estimates.

The Group based its estimations and judgments on parameters available when the consolidated financial statements were prepared. Existing circumstances about future developments may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the judgments as they occur.

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Estimasi dan pertimbangan berikut ini dibuat oleh manajemen dalam rangka penerapan kebijakan akuntansi Grup yang memiliki pengaruh paling signifikan atas jumlah yang diakui dalam laporan keuangan konsolidasian:

Menentukan mata uang fungsional

Faktor-faktor yang dipertimbangkan dalam menentukan mata uang fungsional Perusahaan dan Entitas Anak termasuk, antara lain, mata uang:

- a) yang paling mempengaruhi harga jual barang dan iasa.
- b) yang paling mempengaruhi biaya tenaga kerja, dan biaya lain dari pengadaan barang atau jasa, dan
- c) yang mana dana dari aktivitas pendanaan dihasilkan dan penerimaan dari aktivitas operasi pada umumnya ditahan.

Berdasarkan substansi ekonomis dari kondisi yang sesuai dengan Grup, mata uang fungsional telah ditentukan berupa Rp, karena hal ini berkaitan dengan fakta bahwa mayoritas bisnis Grup dipengaruhi oleh lingkungan ekonomi utama dimana Grup beroperasi, harga jual barang atau jasa dan biaya tenaga kerja, serta biaya lain dari pengadaan barang atau jasa dalam mata uang Rp.

Klasifikasi aset keuangan dan liabilitas keuangan

Grup menetapkan klasifikasi atas aset dan liabilitas tertentu sebagai aset keuangan dan liabilitas keuangan dengan mempertimbangkan apakah definisi yang ditetapkan PSAK No. 71 dipenuhi. Dengan demikian, aset keuangan dan liabilitas keuangan diakui sesuai dengan kebijakan akuntansi Grup seperti diungkapkan pada Catatan 2.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

The following estimations and judgments made by management in the process of applying the Group' accounting policies have the most significant effects on the amounts recognized in the consolidated financial statements:

Determining functional currency

The factors considered in determining the functional currency of the Company and Subsidiary include, among others, the currency:

- a) that mainly influences sales prices for goods and services:
- b) that mainly influences labor, material and other costs of providing goods or services; and
- c) in which funds from financing activities are generated and receipts from operating activities are generally withheld.

Based on the economic substance of the underlying circumstances relevant to the Group, the functional currency has been determined to be Rp, as this reflects the fact that the majority of the Group' businesses were influenced by the primary economic environment in which the Group operates.

<u>Determining classification of financial assets and financial liabilities</u>

The Group determined the classification of certain assets and liabilities as financial assets and financial liabilities by judging if they meet the definition set forth in PSAK No. 71. Accordingly, the financial assets and financial liabilities were accounted for in accordance with the Company's accounting policies as disclosed in Note 2.

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Menentukan nilai wajar dan perhitungan dari instrumen keuangan

Grup mencatat aset dan liabilitas keuangan tertentu pada nilai wajar melalui laba rugi dan pada biaya perolehan diamortisasi. yang mengharuskan penggunaan estimasi akuntansi. Sementara komponen signifikan atas pengukuran nilai wajar dan asumsi yang digunakan dalam perhitungan biaya perolehan diamortisasi ditentukan menggunakan bukti objektif yang dapat diverifikasi, jumlah nilai wajar atau amortisasi dapat berbeda jika Grup menggunakan metodologi penilaian atau asumsi yang berbeda. Perubahan tersebut dapat mempengaruhi secara langsung laba rugi Grup. Penjelasan lebih rinci diungkapkan dalam Catatan 29.

Menilai jumlah terpulihkan dari aset nonkeuangan

Penyisihan penurunan nilai pasar dan keusangan persediaan diestimasi berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas kepada, kondisi fisik persediaan yang dimiliki, harga jual pasar, estimasi biaya penyelesaian dan estimasi biaya yang timbul untuk penjualan. Penyisihan dievaluasi kembali dan disesuaikan jika terdapat tambahan informasi yang memengaruhi jumlah yang diestimasi. Penjelasan lebih rinci diungkapkan dalam Catatan 6.

Jumlah terpulihkan aset tetap didasarkan pada estimasi dan asumsi khususnya mengenai prospek pasar dan arus kas terkait dengan aset. Estimasi arus kas masa depan mencakup perkiraan mengenai pendapatan masa depan. Setiap perubahan dalam estimasi ini mungkin memiliki dampak material terhadap pengukuran jumlah terpulihkan dan bisa mengakibatkan penyesuaian penyisihan penurunan nilai yang sudah dibukukan. Penjelasan lebih rinci diungkapkan dalam Catatan 9.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

<u>Determining fair value and calculation of cost</u> amortization of financial instruments

The Group recorded certain financial assets and liabilities at fair values and at amortized costs, which require the use of accounting estimates. While significant components of fair value measurement and assumptions used in the calculation of cost amortization were determined using verifiable objective evidence, the fair value or amortization amount would differ if the Group utilized different valuation methodology or assumptions. Such changes would directly affect the Group' profit or loss. Further details are disclosed in Note 29.

Assess the recoverable amount of the non-financial assets

Provision for decline in market value and inventory obsolescence was estimated based on available facts and circumstances, including but not limited to, the physical condition of the inventories held, market selling prices, estimated costs of completion and estimated costs incurred for sales. Provisions are re-evaluated and adjusted if there is additional information that affects the amount estimated. Further details are disclosed in Note 6.

The recoverable amount of fixed assets was based on estimates and assumptions specifically regarding the market prospects and cash flows associated with the assets. Estimates of future cash flows include estimates of future income. Any change in these estimates could have a material effect on the measurement of the recoverable amount and could result in an adjustment to the allowance for impairment already recorded. Further details are disclosed in Note 9.

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Penyisihan atas kerugian penurunan nilai piutang

Grup mengevaluasi akun piutang tertentu yang diketahui bahwa pelanggan tertentu tidak dapat memenuhi kewajiban keuangannya. Dalam hal tersebut. Grup menggunakan pertimbangan, berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas pada, jangka waktu hubungan dengan pelanggan dan status kredit dari pelanggan berdasarkan catatan kredit dari pihak ketiga yang tersedia dan faktor pasar yang telah diketahui, untuk mencatat penyisihan spesifik atas pelanggan terhadap jumlah terutang guna mengurangi jumlah piutang yang diharapkan dapat diterima oleh Grup. Penyisihan spesifik ini dievaluasi kembali dan disesuaikan jika tambahan informasi yang diterima mempengaruhi jumlah penyisihan atas penurunan nilai piutang. Penjelasan lebih lanjut diungkapkan dalam Catatan 5.

Menentukan metode penyusutan dan estimasi masa manfaat aset tetap

Biaya perolehan aset tetap disusutkan dengan menggunakan metode garis lurus berdasarkan estimasi masa manfaatnya. Manajemen mengestimasi masa manfaat aset tetap 4 tahun sampai dengan 20 tahun. Ini adalah ekspektasi umur yang secara umum diterapkan dalam industri dimana Grup menjalankan bisnisnya. Perubahan tingkat pemakaian dan perkembangan teknologi dapat mempengaruhi masa manfaat dan nilai sisa aset, dan karenanya beban penyusutan masa depan mungkin direvisi. Penjelasan lebih rinci diungkapkan dalam Catatan 9.

Estimasi beban dan liabilitas imbalan kerja

Penentuan liabilitas dan beban untuk imbalan kerja Grup tergantung pada pemilihan asumsi yang digunakan dalam menghitung jumlah tersebut. Asumsi tersebut termasuk antara lain tingkat diskonto, tingkat kenaikan gaji, tingkat pengunduran diri, tingkat kecacatan, umur pensiun dan tingkat mortalitas. Hasil aktual yang berbeda dari asumsi yang ditetapkan Grup langsung diakui dalam laba rugi pada saat terjadinya. Sementara Grup berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaan signifikan pada hasil aktual atau perubahan signifikan dalam asumsi yang ditetapkan Grup dapat mempengaruhi secara material liabilitas dan beban imbalan kerja. Penjelasan lebih lanjut diungkapkan dalam Catatan 16.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

Allowance from impairment loss of receivables

The Group evaluates specific accounts receivable where it has information that certain customers were unable to meet their financial obligations. In these cases, the Group used judgment, based on available facts and circumstances, including but not limited to, the length of its relationship with the customer and the customer's current credit status based on any available third party credit reports and known market factors, to record specific provisions for customers against amounts due to reduce their receivable amounts that the Group expects to collect. These specific provision were re-evaluated and adjusted as additional information received affects the allowance for impairment of receivable. Further details are disclosed in Notes 5.

<u>Determining the method of depreciation and the</u> estimated useful lives of fixed assets

The costs of fixed assets are depreciated on a straightline basis over their estimated useful lives. Management properly estimates the useful lives of these fixed assets to be within 4 years up to 20 years. These are common life expectancies applied in the industries in which the Group conducts its business. Changes in the expected level of usage and technological development could impact on the useful lives and the residual values of these assets, and therefore future depreciation charges could be revised. Further details are disclosed in Note 9.

Estimate of employee benefits expense and liability

The determination of the Group' liability and expense for employee benefits is dependent on its selection of certain assumptions used in calculating such amounts. These assumptions include among others, discount rate, salary increment rate, turnover rates, disability rate, normal pension age and mortality rate. Actual results that differ from the assumptions determined by the Group are immediately recognized in profit or loss as incurred. While the Group believed that its assumptions were reasonable and appropriate, significant differences in the Group' actual results or significant changes in the Group' assumptions may materially affect its employee benefits liability and expense. Further details are disclosed in Note 16.

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Menentukan pajak penghasilan

Pertimbangan signifikan dilakukan dalam menentukan provisi atas pajak penghasilan badan. Terdapat transaksi dan perhitungan tertentu yang penentuan pajak akhirnya tidak pasti sepanjang kegiatan usaha normal. Dalam situasi tertentu, Grup tidak dapat menentukan secara pasti jumlah liabilitas pajak mereka pada saat ini atau masa depan karena proses pemeriksaan oleh otoritas perpajakan. Grup mengakui liabilitas atas pajak penghasilan badan yang diharapkan berdasarkan estimasi apakah akan terdapat tambahan pajak penghasilan badan yang akan jatuh tempo. Penjelasan lebih rinci diungkapkan dalam Catatan 17.

Aset pajak tangguhan diakui apabila besar kemungkinannya bahwa laba kena pajak akan tersedia. Estimasi signifikan oleh manajemen disyaratkan dalam menentukan jumlah aset pajak tangguhan yang dapat diakui, berdasarkan saat penggunaan dan tingkat laba kena pajak dan strategi perencanaan pajak masa depan. Namun tidak terdapat kepastian bahwa Grup dapat menghasilkan laba kena pajak yang cukup untuk memungkinkan penggunaan sebagian atau keseluruhan dari aset pajak tangguhan tersebut. Penjelasan lebih rinci diungkapkan dalam Catatan 17.

Mengevaluasi provisi dan kontinjensi

Grup melakukan pertimbangan untuk membedakan antara provisi dan kontinjensi serta mempersiapkan provisi yang sesuai untuk proses hukum atau kewajiban konstruktif, jika ada, sesuai dengan kebijakan provisinya dan mempertimbangkan risiko dan ketidakpastian yang relevan.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

Determining income taxes

Significant judgment is involved in determining provision for corporate income tax. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognizes liabilities for expected corporate income tax based on estimates as to whether additional corporate income tax will be due. Further details are disclosed in Note 17.

Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available. Significant estimation by management is required in determining the amount of deferred tax assets that can be recognized, based on the timing and level of taxable income and future tax planning strategies. However, there is no certainty that the Group will generate sufficient taxable income to allow all or part of the deferred tax assets to be utilized. Further details are disclosed in Note 17.

Evaluating provisions and contingencies

The Group exercises its judgment to distinguish between provisions and contingencies and sets up appropriate provisions for its legal or constructive obligations, if any, in accordance with its policies on provisions and takes the relevant risks and uncertainty into account.

e. Administrasi

Undang-undang Perpajakan Indonesia mengatur bahwa masing-masing entitas perusahaan menghitung dan membayar sendiri besarnya jumlah pajak yang terutang. Pihak fiskus dapat melakukan pemeriksaan atas perhitungan pajak tersebut dalam jangka waktu 5 tahun. Apabila dalam jangka waktu tersebut pihak fiskus tidak melakukan pemeriksaan, maka SPT Tahunan perusahaan dianggap rampung. Kewajiban perpajakan lainnya, jika ada, sesuai dengan Undang-Undang Perpajakan akan diselesaikan saat jatuh tempo.

e. Administration

Taxation laws of Indonesia regulated that companies submit tax returns on the basis of self-assessment. The tax authorities can audit the tax calculation within a period of 5 years. If during that period the tax authorities do not conduct an inspection, the Company's Annual Tax Return is deemed completed. Other tax obligations, if any, in accordance with the Taxation Law will be settled by the Company when due.
